DOUBLE-A Double with greater heights

Two-section ladder with 2 convertible parts (A position), made of aluminium, with rungs spaced 28cm apart. Each section can be set to the desired height independently, allowing work on stairs or uneven ground. Ideal for professional work at greater heights, with no need to lean it against a support (using both sides of the ladder extension).

TECHNICAL SPECIFICATIONS

- Number of steps: 2x6 to 2x14;
- Step spacing: 28cm;
- Width: 48cm (front) + 42cm (rear);
- Non-slip feet with ergonomic design;
- Internal nylon reinforcement at the stabiliser insertion point;
- Steel fittings with anti-corrosion treatment;
- Anti-slide safety device;
- User and maintenance manual;
- Identification label.

See the available components at www.jormax.com.
