WORKSTEP 700

Lightweight, stable and compact folding aluminium work platform, designed for DIY tasks and work at height indoors or outdoors. The large 70 × 30 cm platform provides a comfortable working surface, while the extra-wide steps make access easy from both sides. With a platform height of 50 cm, it reaches a working height of up to 2.50 m. The automatic locking system keeps the steps secure during use, and the folding design significantly reduces the space needed for transport and storage.

TECHNICAL SPECIFICATIONS

- Work platform: 70 × 30 cm;
- Platform height: 50 cm;
- Maximum working height: 2.50 m;
- Access from both sides;
- Extra-wide steps;
- Automatic step locking system;
- Base dimensions when open: 72 × 40 cm;
