J400 - PLATAFORMA FIXA

Ladder with fixed platform, developed for safe access to below-ground levels. The J400 is designed to ensure greater stability, safety and comfort in excavation, foundation, maintenance and technical access work on site. The aluminium structure makes the equipment sturdy and easy to handle, while the top platform provides a firm, safe working area. Available from 6 to 14 steps, it adapts to different working heights and site requirements.

TECHNICAL SPECIFICATIONS

- Number of steps: from 6 to 14;
- Step spacing: 25.7cm;
- Step depth: 10cm;
- Profile: 65x25mm;
- Platform: 55x40cm;
- Overall width: 80cm;
- Access width: 55cm;
- Aluminium platform;
- Access handrails;
- User and maintenance manual;
- Identification label.

J400 - 8 steps
